

REMARKS/ARGUMENTS

Claim 1 has been changed. Claims 3, 8, and 16 have been canceled. Claims 9-15 and 17- 25 have been withdrawn. Claims 26, 27, 28, and 29 are new. Claims 1, 2, 4-7, and 26-29 are now in the application.

Claim 8 was objected to as being dependent upon a rejected base claim, but was stated to be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claim.

Claim 1 has been changed to include all the limitations of claim 8 and to explicitly cite the solar cell as an element. The explicit citation of the solar cell is not in response to an examiner's rejection, nor to obtain patentability (since patentability has been acknowledged with the addition of claim 8), but to improve the form of the claim. Since claim 1 meets the requirements of the examiner's rejection of claim 8, applicants believe that it is allowable.

Claims 2, 4-7, and 26 depend from amended claim 1; therefore applicants believe they are allowable.

Applicants believe that claims 27-29 are also allowable.

Applicants note that any amendments or claim cancellations made herein and not substantively discussed above are made solely for the purposes of more clearly and particularly describing and claiming the invention, and not for purposes of overcoming art. The Examiner should infer no (i) adoption of a position with respect to patentability, (ii) change in the Applicant's position with respect to any claim or subject matter of the invention, or (iii) acquiescence in any way to any position taken by the Examiner, based on such amendments or cancellations not substantively discussed. Furthermore, any remarks made herein with respect to a given claim or amendment are intended only in the context of that specific claim or amendment, and should not be applied to other claims, amendments, or aspects of Applicant's invention.

Applicant specifically reserves the right to prosecute claims of differing and broader scope than those presented herein, in a continuation application.

The Applicants believe that the subject application, as amended, is in condition for allowance. Such action is earnestly solicited by the Applicants.

In the event that the Examiner deems the present application non-allowable, it is requested that the Examiner telephone the Applicant's attorney or agent at the number indicated below so that the prosecution of the present case may be advanced by the clarification of any continuing rejection.
